GORTITE® MOLDED WAY WIPERS | QUOTE REQUEST FORM

Molded Polyurethane Way Wipers

- Wipers are available in standard lengths for easy installation, or custom molded to your print/CAD drawing for protecting any shape or size way.
- Ideal for moderate to high volumes and OEM applications (nominal tooling charge required).
- Molded from high-quality polyurethane for exceptional abrasion resistance.
- One-piece construction with metal insert.
- Include molded-in steel insert plates and pre-drilled mounting holes (when specified) for fast, easy installation.
- 1", 3/4", and LP (low profile) cross sections.
- Custom-engineered cross sections also available.
- Metal chip guards available for heavy chip load applications.
- Additional materials available upon request.
- Available by part number for Okuma and Mori Seiki machines.

Date _____ Address _____
