DYNATECT®
DYNAMIC EQUIPMENT PROTECTION

GORTITE® Motorized Bed Cover

Delivering Convenience, Security and Advanced Functionality

Dynatect draws on decades of experience in doors and automation to offer a powered roll-up door solution, incorporating features such as:

- Operator safety
- Door reliability
- Minimal doorway obstructions
- Simplified wiring
- Strong security, power-loss bypass options
- Scalable controller from hardwire inputs to automotive protocols

---

Safest Mechanical & Electronic Design

- 3 simultaneous modes of motion control
  - Hardwire cover sensors for open and close
  - Overcurrent sensing for obstruction detection and auto-reverse
  - Door travel time-out limits
- Positively driven open and close which keep doors from drifting when partially opened or on a hill
- Heat management to support (5) open/close cycles every minute
- Auto-locking, including locking on power loss

SAFETY - SECURITY - SPEED - COMPATIBILITY

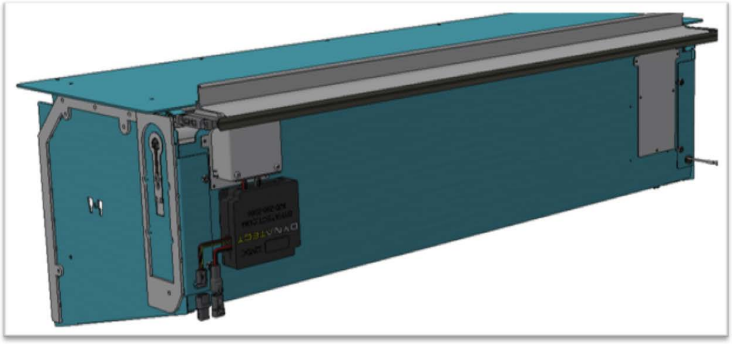
DYNATECT®
DYNAMIC EQUIPMENT PROTECTION

Self-Contained Powered Cover Solution

- Motor/gearbox fits into existing manual idler tube envelope
- Controller mounted to header assembly
- Integrated end-of-travel sensors without wiring down the length of the bed
- Auto-locking without wiring down the length of the bed



Most Versatile Controller

- Inputs for door-open/door-close:
  - (1) FOB RF remote control
  - (1) Hardwire I/O harness (can be installer wired to optional push buttons or BCM relays
  - Optional outdoor rated keypad
  - Optional CAN SAE J1939 network interface for high volume adoption
- Designed for operating environments -40^{0}F to +140^{0}F

Security and Power-Loss Protection

- Low battery cutoff prevents high-current draw or erratic operation
- Optional manual release from outside the compartment via keyed interface

DYNATECT®

DYNAMIC EQUIPMENT PROTECTION

HOW TO SPECIFY

Make it Perfectly Match Your Service Body:

- Tailored Fit: Designed to seamlessly fit standard service bodies, with custom sizes available up to 144" in length
- Superior Durability: Features corrosion-resistant components, including anodized aluminum finish, and stainless-steel take-up canister
- Brand Harmony: Opt for a commercial paint finish that can match any color. Additionally, the slats are designed to accept OEM or end-user decals, ensuring a cohesive brand identity
- Smooth Operating: Equipped with a heavy-duty spring-assisted design for smooth and easy operation
- Convenient Serviceability: Individual slats can be field-replaced in the event of extreme damage, ensuring quick and cost-effective maintenance

OUR LIFETIME ROLL-UP DOOR WARRANTY

The roll-up doors have the following warranties to be free from defects in materials and workmanship:

- Lifetime for the spring-loaded roller
- 3 years for all other parts
- 5 years for optional painted finish (free from peeling or blistering)
- 1 year for optional electronic equipment
- Warranties are from date of shipment and apply to the original owner
- Damage due to accidents or external causes are not warranted

NEED A COVER SOLUTION WITH CUSTOM FEATURES?

We offer full engineering and design support to integrate into your vehicle with custom features, options and accessories.

DYNATECT IS AN ESTABLISHED HIGH-VOLUME TIER 1 AUTOMOTIVE SUPPLIER

DYNATECT AUTOMOTIVE EXPERIENCE/FEATURES INCLUDE:

- Automotive water management compliance
- Automotive brake/squeak/rattle (BSR) compliance
- Optimized ergonomics to minimize repetitive motions and operator strain
- Customizable locks and power-lock options (including signal duration and power draw)
- Customizable latching options
- Motorized door options with key-fob control integrated into BCM
- OEM curved door frames and doors that follow the interior vehicle contour
- OEM frame mountings that facilitate retrofit to swing-out door mounting points
- OEM composite beauty covers
