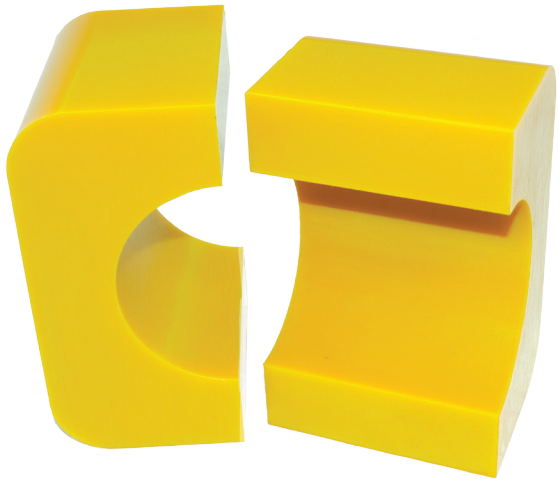
POLYURETHANE PIPE SUPPORT GUIDES

FOR DIRECTIONAL DRILLING MACHINES

- Maximize smooth guiding of pipes while minimizing shake and rattle
- Features a urethane formulation that resists heat build-up or melting providing a consistent support surface
- Field proven and engineered specifically for rugged conditions in extreme temperatures

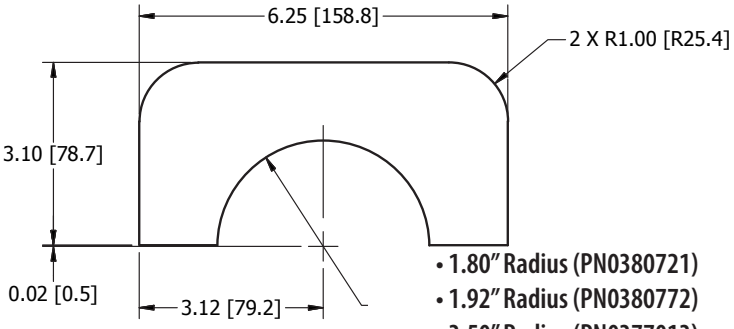


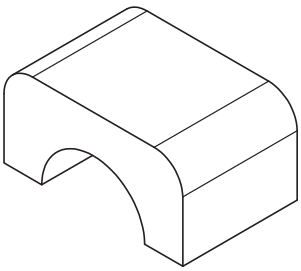
KEY ADVANTAGES:

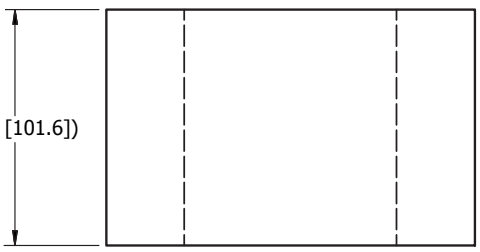
- Longer life: resists rapid deterioration under temperature extremes from -5° F to 200° F
- Precisely formulated to ensure repeatable part performance
- Molding process results in a finished product with excellent quality & consistency

Increase uptime and service life with Dynatect's superior wear components, engineered and precision-molded for the best performance.

Pipe guides come in common standard sizes for quick delivery. See radius options below.
More sizes available upon request







- **1.80″ Radius (PN0380721)**
- **1.92″ Radius (PN0380772)**
- **3.50″ Radius (PN0377013)**
- **3.75″ Radius (PN0377014)**
- **4.50″ Radius (PN0377012)**
